- Upon arrival of the colli (parcel), please immediately verify whether they are free of transport damage. In particular, check whether all colli (boxes, envelopes, or otherwise) listed above are included in the shipment, and whether their packaging still is in good condition. Indicate any transport damage on the consignment note (carrier's delivery document) and inform TVH within twelve (12) hours from delivery. For transport claims to be acceptable, the consignment note must bear a signature, and the name of the person signing, must be stated legibly. A mere company stamp and/or name are insufficient.

- If you wish to return a Product to TVH, please adhere to TVH's General Guidelines on Product Returns (www.tvh.com/avv) and bear in mind the following time constraints: Complaints relating to visible damage to the Product (other than transport damage), or complaints relating to a delivery that is not in conformity with your order, must be reported to TVH within 48 hours after delivery. Any other complaint must be reported to TVH no later than three months after delivery, unless specified otherwise in the corresponding Product invoice.

- If you ship a Product back to TVH without a valid Return Authorization Form, including Return Number, TVH will have no other option that to refuse your return and charge all ensuing costs to you.

- This Delivery Note does not include information on backorders. Please consult our backorder report and our shipment confirmation for details about backorders.
